Method(s) used by Huertas College to determine which students received HEERF and how much they would receive under Section 18004(a)(1)	The President of Huertas College appoint a committee comprised of the Registrar, Financial Aid Director, Financial Director and the Fiscal Officer. In addition, other staff from the Enrollment Management Department supported the processes. This committee, following the guidelines provided by the Department of Education, identified the student population enrolled at the time of the emergency, then the Director of Financial Aid validated that the population identified by the Registrar's Office complied with the eligibility parameters established by the Department of Education; once this task was completed, a questionnaire was sent to those students to learn about their needs and validate the mailing addresses for the eventual delivery of the checks. A task force was appointed to carry out a validation exercise of the postal addresses in the Campus system. The Fiscal Officer will provide the student's information to the person who will print the checks and mail them.
